

The Pine Bluff/Jefferson County Library System is now live on the Arkansas Digital Library Consortium site. Now that we have joined the Arkansas Digital Library Consortium you can now enjoy over 35,000 items, that consist of new e-books and audio books that will be added to the library collection. We look forward to an enhanced selection of e-books and audio books that will be available through the new state-wide consortium. All patrons will need to add Arkansas Digital Library Consortium to their list of libraries in the OverDrive and Libby app and sign in using their current Pine Bluff credentials.

Please feel free to reach out with any issues or questions that you have.
